

# HAPPY IS HEALTHY

Nüdel Rover instantly transforms an often scary and uncertain hospital environment for children into a vibrant, engaging and highly stimulating space that is quick to pack up and can be cleaned to a clinical standard.

Prototype pictured

Created by Playground Ideas, a non-profit that has supported over 2.5million children in 143 countries to get access to play.

**VERSATILE & MOBILE**  
Use in big and small, indoor and outdoor spaces

**SIMPLE TO USE**  
Easily packed up in minutes

# THERAPEUTIC PLAY

Our research backed play carts create a therapeutic play space that can be reconfigured in infinite ways to support health care professionals (HCP's) in observation, assessment and the therapeutic support of the child as well as keeping them happy and active during long hospital days.

Nüdel Rover allows HCPs to create on-the-spot, appropriate and challenging experiences, to support children with a range of activities to improve skills and get back on their feet. Nüdel's specifically crafted materials can be pulled-apart, manipulated and redesigned into infinite creations, to unlock the highest forms of imagination & engagement in a package that is easy to use for the busy HCP.
